CEMETERY DEPARTMENT

The list of bonds in the cemetery account remains the same as last year except for the exchanges as reported in the following account, which leaves the lots of John Johnston and R. A. Blanchard credited with a savings deposit instead of investment in bonds.

Also, in accordance with the original records, we have credited the Peter Sanborn lot with a First Liberty Loan, and the G. W. Nutter lot, for care of which the bond matured in 1928, is now credited in the savings account.

Total funds reported in 1930	\$ 11,300 00

School Report

To the Citizens of Corinna:

We hereby submit our report for the year ending February 1, 1931.

In our estimation the schools for the year have been very satisfactory. We believe they have been maintained as cheaply as is consistent with our desires and our demands, for good and careful work and efficient progress. We realize that the expense of the school department seems to the casual thinker to be quite large but when we consider the number of individuals and the amount of work involved it is not large. It is in reality quite small. Two hundred eighty-three elementary school children are provided with 34 weeks' schooling and 66 secondary school children are provided with 36 weeks' schooling, at an average cost for the elementary children \$50.36 a year and for the secondary \$55.30 a year. This entails the work of 18 teachers, 7 conveyance teams and driver, 1 regular janitor besides the janitors at the rural schools.

Before any repairing was done the school committee visited with the Superintendent the school houses that are occupied and planned the repairing to be done in each case. We believe that the town cannot afford to allow a good sound school building to go to ruin for the want of shingles or any similar minor cost. So we shingled the roof of the White school house so called.

At the South ridge school pupils and parents have added outside windows to one side of the building.

As recommended last year the shed and toilets have been joined with the school house at the Fisher school and buildings painted outside and in, and papered. The Bassett school house was put in good condition for school except that the shed and toilets have not been remodeled. This should be done in order that it may have the approval of the state. A new steel ceiling was put in the room of Mrs. Stone in the village school and painted. This room needs new black boards.

The cost of transportation is still hard to cut down due to the lack of cooperation of some of the parents with the teams.

We recommend the following appropriations for the ensuing year:

Elementary school	\$8,000 00
Secondary school	3,500 00
Text books	250 00
Supplies	300 00
Repairs	1,000 00
Superintendence	550 00
Medical inspection	100 00
School music	400 00
High school aside from instruction	150 00
	<hr/>
	\$14,250 00

Respectfully submitted,

PERLEY IRELAND,
 NORMAN BURRILL,
 J. CECIL BROWN,
 Superintending School Committee.

REPORT OF PRINCIPAL OF CORINNA UNION ACADEMY

To the Superintendent of Schools, Corinna, Maine:

Dear Sir:

I herewith submit my report as principal of Corinna Union Academy.

The enrollment at the beginning of the year was about seventy but a few students have dropped out leaving an enrollment now of sixty-five. The average attendance has not been very high due to the epidemics which have been current this winter.

	Boys	Girls
Seniors	5	12
Juniors	9	8
Sophomores	7	10
Freshmen	4	9
Special	1	
	<hr/> 26	<hr/> 39

Without taking any time from the regular scholastic work of the school, we have endeavored to promote various school activities, participation in which, I believe, is beneficial to every student as it develops faculties which would most likely not be brought out at all in the ordinary routine of school work. A Student Council composed of ten members has been organized which assumes control of all the school activities, such as publishing the Muse, athletics, dramatics, prize speaking, and so forth. The work involved in promoting, managing and financing these various activities gives the student a sort of training which he or she could not otherwise obtain.

There is a very noticeable lack of reference books at the Academy and there are no periodicals at all. It is hoped that we shall be able to finance the purchase of some new reference books and also to subscribe to some of the leading magazines appropriate for schools.

I should be glad to see some of the citizens of the town visiting the Academy occasionally. If we teachers could meet the parents of the students and become better acquainted with them I believe we would understand each others' problems better and by working together could get the maximum amount of effort out of the pupils.

I take this opportunity to extend my thanks and appreciation to you, to the Executive Board of the Trustees and to the townspeople for the assistance and cooperation I have received in everything that has gone toward making the school year a success.

Respectfully submitted,

PAUL E. SNOW.

REPORT OF MUSIC SUPERVISOR

To the Supt. of Schools, School Board and Citizens:

It is with pleasure that I hereby submit my second annual report.

In the previous report all the technicalities of music that are taught from Grade I to the Senior student, were outlined. More on this subject would be superfluous.

The doctrine and ultimate aim of music remain the same as they have throughout the past centuries,—to enable an artistic instinct through an intellectual development, for music helps us to express our inner nature. We can do it through music, only if we have the proper knowledge. Of course we all agree, that apart from a vocational attitude music is not a material, practical element. However, we do acquiesce that music study exalts life, and for what are we all here, but to make the best of living?

Perhaps it would interest you to know of the various schools that are visited weekly in musical interest. In the village there are the nine grades in the Grammar building, and the Academy. Then there is the Bond's Corner school in charge of Miss Erma Tasker, the Morse's Corner school, now under Mrs. M. Buck. Miss S. Dearborn has charge of the music at the Center school, and the Town Farm school is instructed by Miss G. Nichols, also the Fisher school in spite of being so remotely situated is doing excellent work.

To prove the absolute worthiness of our Music course so frequently to ascertain our progress.

Respectfully submitted,

ALEIDA H. ROOS,

Music Supervisor.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Superintending School Committee and the Citizens of Corinna:

I herein submit my report of your schools for the year ending February 1, 1931.

The school census taken last spring found 195 boys and 239 girls of school age in the town of Corinna. Of these 285 are enrolled in the elementary schools and 66 in the Academy.

Twelve elementary schools have been maintained since the opening in September. The following table gives the names of the schools and the teachers, the weekly wages, and the number of pupils in each grade at the beginning of the school year.

Names	Weekly Wages	Grades									Totals
		I	II	III	IV	V	VI	VII	VIII	IX	
Village, Alice M Macomber	\$25.00							15	17	9	41
Village, Oleta R. Thomas	23.00					20	19				39

Village, Lucille Hutchins	18.00	28	12								40
Center, Velma P. Pushor	19.00					8	2	11	2	1	24
Center, Sadie M. Dearborn	18.00	6	8	6	4						24
Town Farm, Gladys E. Nichols	19.00	2	5	6	3	5	4	2	0	5	32
Fisher, Lona M. Additon	15.00	2	3	2	4	1					12
South Ridge, Dorothy McKenney	17.00	0	1	3	0	3	0	1	0	2	10
Morse's Corner, Ruby H. Pipes	18.00	2	0	1	0	3	2	2	4	3	17
Bond's Corner, Erma Tasker	17.00	3	1	2	1	3	1	1	0	0	12
Bassett, Alma E. Barney	15.00	4	1	1	1	0	1	1	0	0	9
	\$227.00	47	31	34	25	43	29	33	23	20	285

In the Academy there are registered:

Freshmen	14
Sophomores	17
Juniors	18
Seniors	17

Good work has been done in all of these schools. Morse's Corner school has been somewhat broken up because of the resignation of Mrs. Pipes at the close of the fall term, and the resignation of Miss Stetson who was secured to fill the vacancy. Mrs. Morang substituted for a few days and Mrs. Madeline Buck was secured to take her place.

The school music is being directed by Miss Roos who did the work last year. The work of Miss Roos in this union is very satisfactory, and the response of the children is very gratifying. They show marked improvement and interest in the work. Miss Roos' report will give some details of the work.

The Health work consisting of physical exercises, health chores, health studies, health talks, etc., is carried on in each school by its teacher. The County Nurse has made visits, inspections, and reports.

"Safety First" work is aided by posters, and lessons in safety, furnished us by the Maine Automobile Association. These have been distributed to the schools every month by the superintendent of schools.

The town of Dexter unites with Corinna in supporting the South Ridge school. Dexter has four pupils in this school this year.

The janitor work in the village is in charge of Mr. R. W. Quimby, who likes to see things kept clean with everything in its place.

The janitor work of the outside schools is in charge of the teachers who do the work themselves or secure someone to do it for them.

Seven conveyance teams are now maintained at a weekly expense of \$66.00. About 35 pupils are being

conveyed.

The Academy has a new corps of teachers this year. Mrs. Ethel K. Snow has charge of the commercial department and Prin. Paul E. Snow, and Miss Hazel R. Looke have charge of the rest of the work. The progress and accomplishment in the different departments seems to be good.

The attendance officer, Mr. Lawrence Metevier, has always been ready to do his part in connection with the schools. It became necessary in the early part of the year to take one party into court because of truancy. A fine and costs amounting to some over \$26.00 was imposed and paid.

If any pupil is not attending school as his teacher thinks he should it becomes her duty to notify the attendance officer. It then becomes his duty to ascertain the reasons why; and if there be not good and sufficient reasons for the absence, to see that the child attends school regularly thereafter.

The school committee has been very helpful to the superintendent and the teachers in the discharge of their duties, the members having given of their time and thought whenever called upon to do so.

The report of the committee will give details of repairs made, etc.

If thirty-four weeks of school of the same quality as we are now having are to be maintained next year, the appropriations should be not much more than a thousand dollars less than was appropriated last year.

Respectfully submitted,

FREDERICK M. NICKERSON,
Superintendent of Schools.

Art. 60. To see if the town will vote to raise and appropriate a sum of money, and if so, how much, for the permanent repair of Mill Street, and determine by whom the same shall be expended.

Art. 61. To see if the town will vote to raise and appropriate a sum of money and if so, how much, for the permanent improvement of the road between the residence of Chas. Dow and the farm buildings of L. D. Buswell, and determine by whom the same shall be expended.

Art. 62. To see if the town will vote to raise and appropriate a sum of money, and if so, how much, for the permanent repair of the road from Hayden's Corner to Ordway's Corner, and determine by whom the same shall be expended.

Art. 63. To see if the town will vote to raise and appropriate a sum of money, and if so, how much, for repairing the road from the corner near the residence of W. J. Lindsey, past the residence of W. H. Palmer to Exeter town line, and determine by whom the same shall be expended.

Art. 64. To see if the town will vote to raise and appropriate the sum of three hundred dollars (\$300.00) for the repair of the road from Knowles Corner, past the residence of Lawrence Metevier to the State Road, and determine by whom the same shall be expended.

Art. 65. To see if the town will take any action regarding the paying of firemen, set an amount of compensation, if any, or act on anything relating thereto.

Art. 66. To see if the town will vote to furnish surety bonds for bonded officers in town, determine for whom the same shall be furnished, raise and appropriate a sum of money for that purpose, or act on anything relating thereto.

Art. 67. To see if the town will vote to pay the town clerk for collecting the automobile excise tax for 1930, raise and appropriate a sum of money for that purpose, or act on anything relating thereto.

Art. 68. To see if the town will vote a compensation for collecting the automobile excise tax for the year 1931, or act on anything relating thereto.

Art. 69. To see if the town will vote to authorize the selectmen to hire money in anticipation of taxes, when needed for current expenses.

Art. 70. To see if the town will vote to increase the salary of the town treasurer, and if so, how much.

Art. 71. To see if the town will vote to pay the second and third selectmen for actual time put in, or act on anything relating thereto.

Art. 72. To see what action the town will take in regard to collecting unpaid sewer assessments.

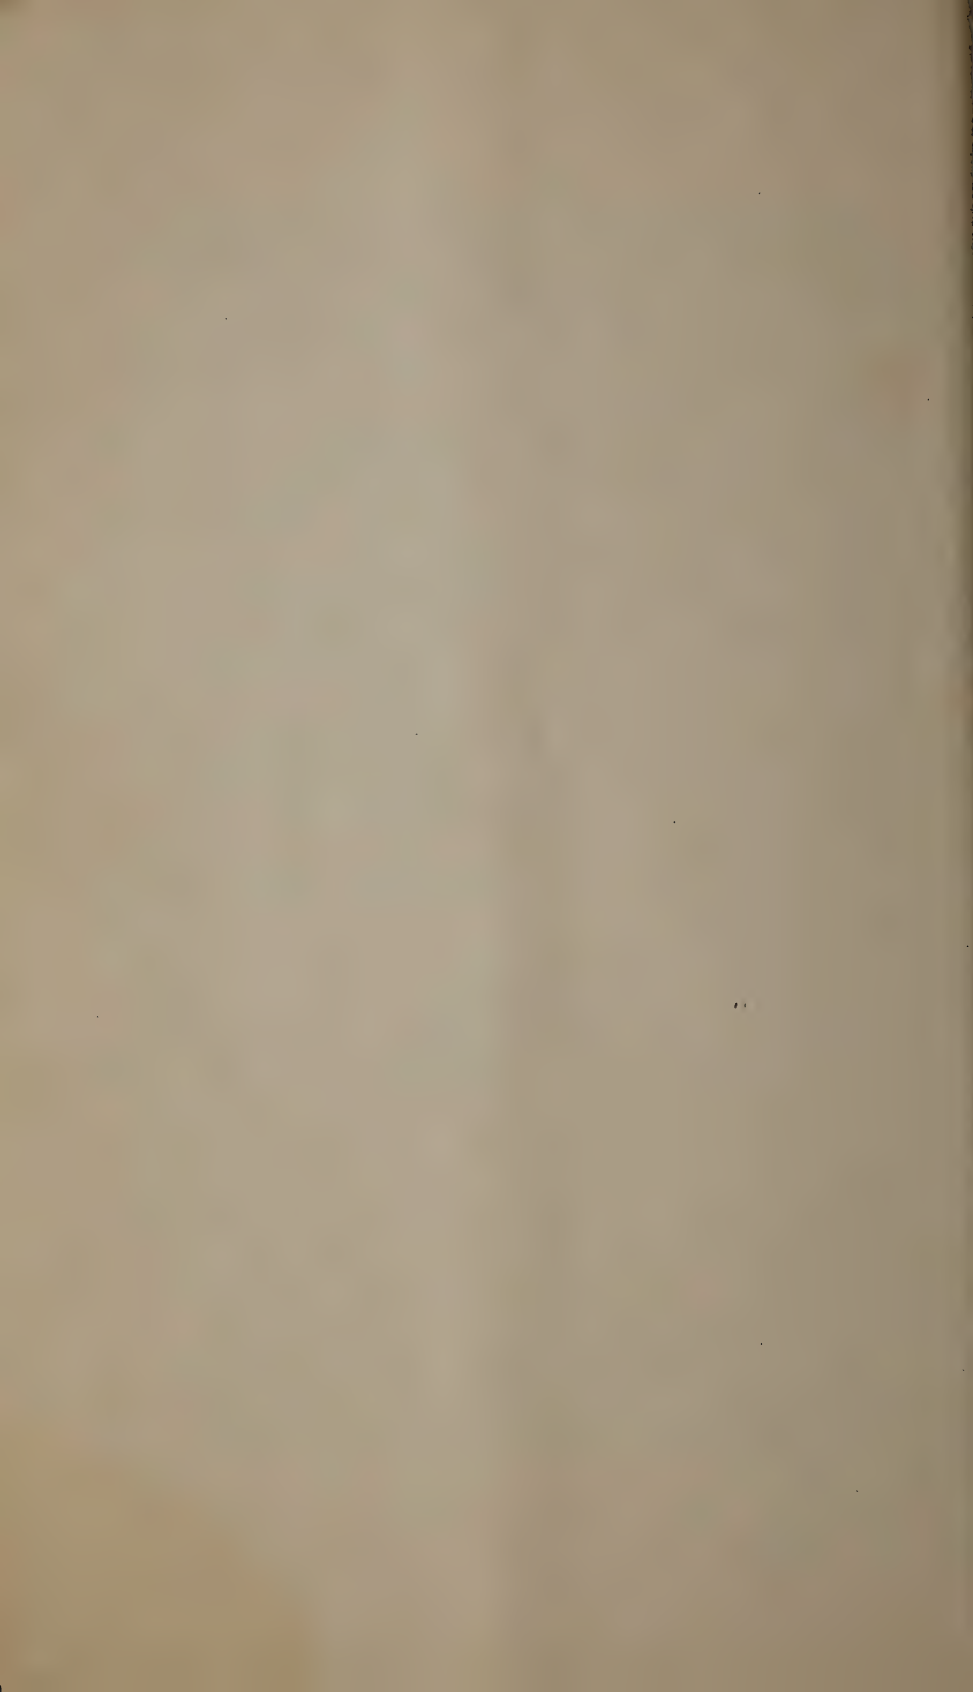

Art. 73. To see if the town will vote to accept the list of jurors as prepared by the selectmen.

You will give notice that the selectmen will be in session in their office in the Stewart Library Building on Monday, the ninth day of March, A. D. 1931, at eight o'clock in the forenoon for the purpose of correcting the list of voters.

Given under our hands this 26th day of February, A. D. 1931.

C. L. JONES,
S. W. KNOWLES,
R. E. IRELAND,

Selectmen of Corinna.

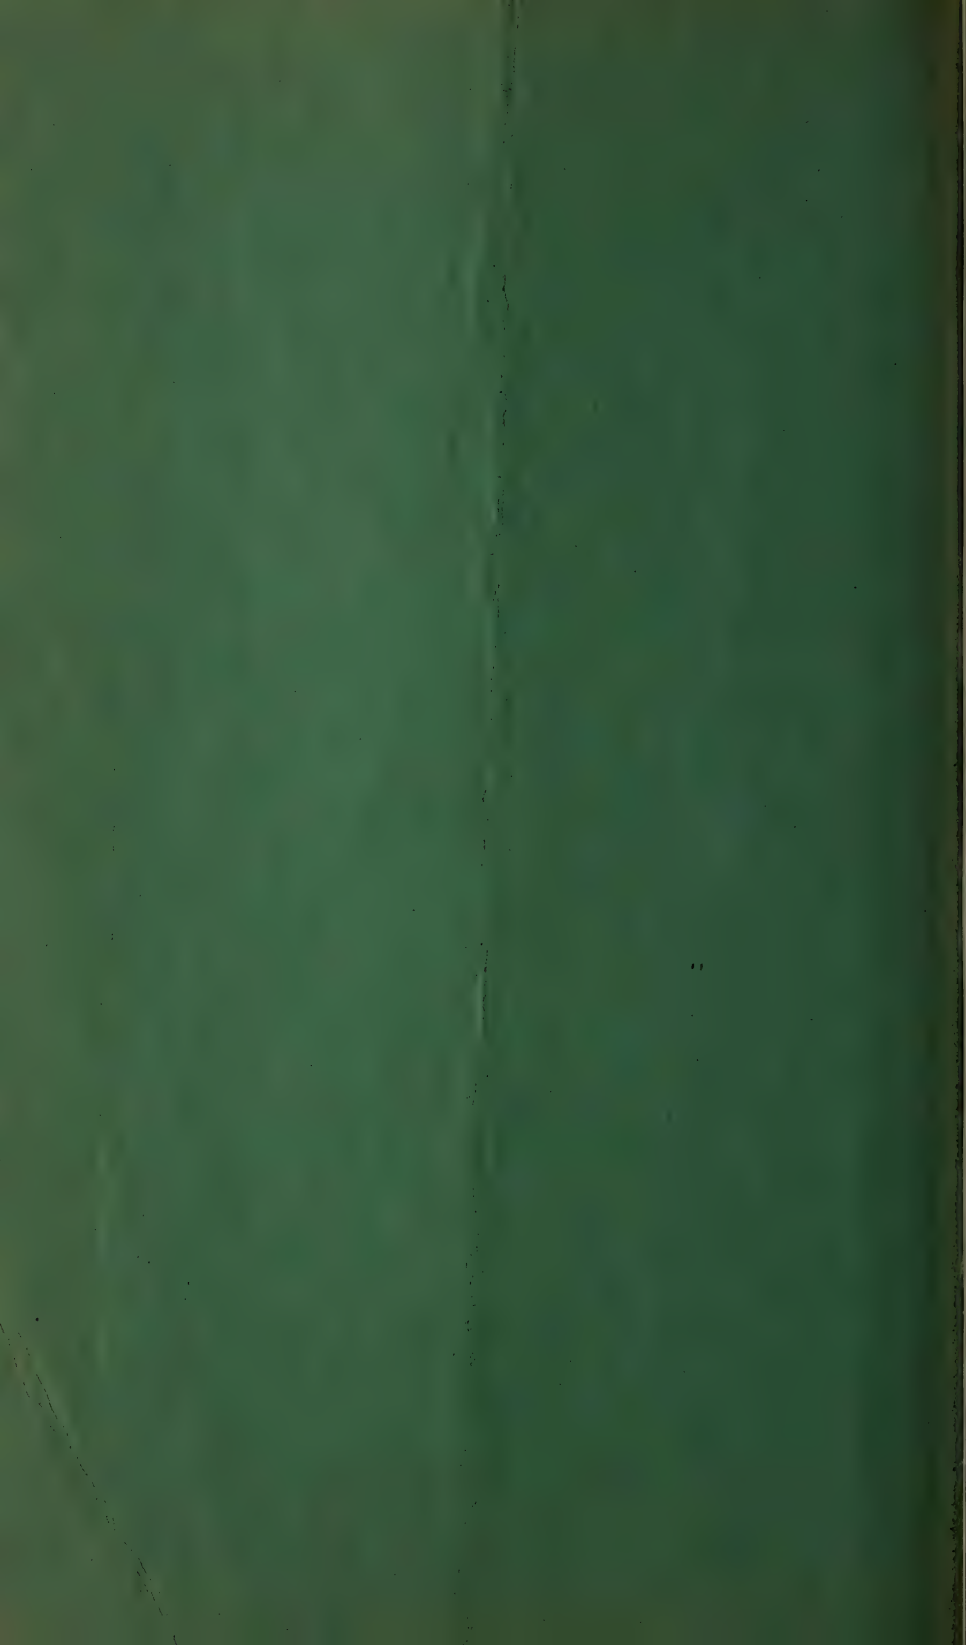

A sufficient number of these reports have been printed to furnish every interested citizen with a copy. An effort has been made to get them into the hands of the voters in advance. It should be borne in mind that if copies are left at home there may not be a sufficient number at the hall to go around on town meeting day. This year or any year it is desirable for you to have a copy of the annual report as soon as issued. It is also important for you to preserve it and bring it with you town meeting day morning.

Librarian.

Report of Public Health Nurse

To the citizens of the town of Corinna, I hereby submit my fourth annual report as a Public Health Nurse.

All the schools have been visited, and the 253 school children were given full inspection. This work was done in the month of February, April, October and November.

In November, a doctor visited the Village and Center schools, for the inspection of throats, in this way, covering one point for the "Seven Point" child activities.

In May, an underweight child was brought to Bangor, one for a Von Parquet test and chest examination, and the other two for nose and throat examinations. These two children returned later to have tonsils and adenoids removed. The expense of some of this work was covered by money derived from the sale of Christmas seals.

One child was taken to an oculist and fitted to glasses. Two days were spent in the summer on follow-up work and 35 school children were visited in their homes and their defects discussed with their parents.

In July, A Farm Bureau meeting was held, and the subject of "Cancer" discussed with the ladies attending this meeting.

A large number of corrections have been made among the school children during the year.

Respectfully submitted,

KATHERINE NOBLE, R. N.,

County Nurse.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Superintending School Committee and the Citizens of Corinna:

I herein submit my report of your schools for the year ending February 1, 1932.

The school census taken last spring found 215 boys and 232 girls of school age in town. Of these 277 are registered in the elementary schools and 60 in the Academy.

Twelve elementary schools have been maintained during this year. The following table gives the names of the schools and the teachers, the weekly wages, and the number of pupils in each grade.

Weekly

Grades

Names	Schools	I	II	III	IV	V	VI	VII	VIII	IX	Total

Good work is being done in all of these schools. The teachers are faithful and painstaking in what they consider their school duties.

We were obliged to procure new teachers for the Town Farm, Morse's Corner, the Sub-Grammar, and the Grammar schools. These schools are progressing well.

In our village schools the lower grades have been somewhat broken up on account of measles and whooping cough. In the Center school it was thought best to suspend the school for two weeks because of the "breaking out" of these diseases.

Under the leadership of Miss Roos the school music is progressing very satisfactorily. Her report will give some details of the work done.

The health work is carried on through physical exercises, health chores, health studies, health talks, instruction on care of the teeth, etc.

The county health nurse, Miss Noble, has done some excellent work in our schools; at least two pupils have received hospital treatment through her influence.

The teachers of the Center school have carried on a campaign against bad teeth. They have had work done on the teeth of their children to the extent of approximately \$90.00. They raised \$30.00 which was supplemented by a gift of \$20.00, the balance to be raised by the school during the remainder of the year.

Teachers who are willing and anxious to do such work as this should be commended for their interest in the welfare of their children, and their faithfulness to their duties. Teaching children how to care for themselves to promote good health is an added duty to the teacher's program.

Our "Safety First" work has been aided by posters supplied by the American Automobile Association through the Maine Automobile Association and distributed by the superintendent of schools every month. Considering the great number of children that are killed by automobiles every year, because of their ignorance or carelessness, it seems that we cannot emphasize this subject too strongly.

The janitor work in the village schools is attended to by Mr. Quimby as during the two previous years;

and that of the outside schools is in charge of the teachers who either do the work themselves or secure someone to do it for them.

Five conveyance teams are being maintained at a weekly expense of \$46.00. This is cheaper than it has been for several years. Approximately thirty pupils are being conveyed.

It is practically impossible to speak too highly of the new Academy building, and of the people who secured it for us. It is a beautiful and thoroughly good building in points of architecture, material and workmanship. The teachers and students are thoroughly enjoying it, and they seem to be inspired by it, and to be putting forth renewed efforts that they may have an outstanding school, and get from it that for which the school is furnished and maintained.

The attendance officer, Mr. Metevier, has always been ready to do his part in connection with the schools. It has not been necessary to call for his services so much this year as in the preceding years.

The members of the school committee have been ready and willing at all times to attend to any matters pertaining to the schools, being much interested that everything be done that can be done to enhance their value and efficiency.

At a joint meeting of the committees of the towns of this union held in the early winter it was decided that a general survey be made of the schools of this union with respect to their physical condition, and the efficiency of the supervision and the teacher work. Thereupon, the State Department of Education was asked to do the work, which they did in the month of January. A report of their findings has not been received at this writing. It will probably be received within a week or two.

During the past year four members of the state de-

partment of education have visited this union in the interests of our schools. two of them visiting practically every elementary school in the union. Also, Miss Buck from the Maine Public Health Association has visited us in the interest of the health work, giving us the benefit of her training and experience.

All this work has been done without any added expense to the towns.

I feel quite desirous that school banking be established in our schools. The aim being to have every child have a bank account. The object being to form the habit of systematic saving.

At the first thought, we might think this not an opportune time to think of such a thing. But to illustrate that it is, let me tell you of once instance; the children in the village schools in Newport, and the Gilman school, 227 in all, have deposited this year \$816.04.

Had it not been for their school banking what would have become of a large part of this money?

In closing, I wish to thank all with whom I have come in contact in the discharge of my duties, for the kindness and helpfulness which I have received from them.

Respectfully submitted,

Frederick M. Nickerson.

REPORT OF PRINCIPAL OF CORINNA UNION ACADEMY

To the Superintendent of Schools, Corinna, Maine:

Dear Sir:

During the year and a half that I have been here I have been trying to direct my efforts towards the accomplishment of what I have come to believe are the chief aims of secondary education. According to my belief these are as follows: to give the pupil knowledge

and training in the skillful use of the fundamental processes; to aid the pupil in bringing about true intellectual efficiency; to discover pupils' special aptitudes and abilities and to guide them into the kinds of work in which they will be most successful; to recognize individual differences and attempt to adjust the pupils to their levels; to give the pupil the kind of democratic secondary education that will best enable him to adjust himself in society, and to become the right kind of citizen; and to give the pupil training for leadership, tolerance, and social responsibility by teaching him the worthy use of leisure, recreation, and social intercourse.

Until a quarter of a century ago practically the only aim of secondary education was to prepare the pupil for entrance to some higher institution of learning. In recent years, however, leaders in educational fields have come to see, and have made others see, that a high school education can be made to benefit not only those who intend to go further in school, but every boy or girl who is able to obtain it. Due to the fact that the aims of secondary education have become so broadened, many significant changes have been brought about in the organization and content of the high school curriculum. It has changed from a slight and narrow subject matter, emphasizing only college preparation, to extensive and varied offerings covering almost every phase of organized human endeavor.

In a school as small as ours, and with so few teachers, it is impossible to offer a very great variety of courses, so the curriculum must, therefore, be limited to well established courses and the field of electives must be correspondingly restricted. I believe that the best way in which we can give the boys and girls of Corinna the kind of education which will most benefit them is to give more prominence in the school to the

teaching of the civic and social studies. Once this field of study consisted of a few sharply defined courses in various periods of history. Recently it has come to include social civics, vocational civics, economics, sociology, commercial and human geography, and the so-called problems of democracy. The most interesting and significant phase of this growth has been the emphasis on civic and individual applications. The social studies are becoming the school laboratories for the development and control of citizenship within the school itself, and I think that we can do nothing better than to give such studies the prominent place that they deserve in our curriculum.

The conditions under which we teachers at the Academy have been working this year can be termed highly satisfactory. Certainly it would be difficult to imagine a better or more conveniently arranged building, and we have been well supplied with books and other materials necessary for carrying on our work.

Our greatest need at present is seats for the auditorium. If it were possible for us to hold assemblies at regular intervals, this feature could easily be made one of the most interesting and instructive parts of the weekly schedule.

The teachers and pupils of the Academy are very appreciative of the efforts that the trustees have made to furnish us with "one of the most beautiful school buildings in Maine" and we hope to show our appreciation by making the present school year a success from every standpoint.

Respectfully submitted,
PAUL E. SNOW.

Corinna, Maine.

Feb. 29, 1932.

To the Citizens of Corinna:

We hereby submit our report for the year ending Feb. 1, 1932.

As a whole, this year has been satisfactory. Expenses have been reduced considerably and yet the same standard has been kept or improved.

All toilets in the rural schools are now rebuilt according to the state specifications and all necessary repair work has been done. Next year some of the buildings should be painted and three schools should be equipped with modern seats.

A state inspection found our schools generally all right. Some criticism, however, was made in regard to light and ventilation.

We recommend the following appropriations for the ensuing year:

Elementary schools	\$7,500 00
Secondary schools	3,500 00
Text books	250 00
Supplies	300 00
Superintendence	500 00
Music	400 00
Repairs and equipment	1,200 00
High school aside from instruction	150 00

Respectfully submitted,

N. F. BURRILL,

J. C. BROWN,

EDNA A. HUTCHINS,

Superintending School Committee.

A sufficient number of these reports have been printed to furnish every interested citizen with a copy. An effort has been made to get them into the hands of the voters in advance. It should be borne in mind that if copies are left at home there may not be a sufficient number at the hall to go around on town meeting day. This year or any year it is desirable for you to have a copy of the annual report as soon as issued. It is also important for you to preserve it and bring it with you town meeting day morning.

LIBRARIAN'S REPORT

To the Board of Selectmen of the Town of Corinna:

I herewith submit the 34th annual report of the Stewart Free Library for the year 1932.

The library has had a very prosperous year having a circulation of 15331 books, an increase of 4211, and an average of 143 per day.

There has been added during the year 171 volumes, making the total numbers of volumes in the circulating library 9570, these together with those in the private library total 16153 volumes.

At the present time there are two "Branch Libraries" in the rural districts. One under the supervision of Mrs. Angie Percival, the other Mrs. Will Chambers.

Requests for book purchase from individual patrons of the library are always accepted gladly, and we are always willing to buy as far as our small book allowance permits.

With so many out of employment and every form of commercial entertainment reduced, people are turning to the libraries for entertainment in the form of reading. The citizens of the town should feel grateful that they are able to supply this form of entertainment.

On account of so much illness among the small children, it was thought advisable not to have the Saturday afternoon story hour.

To those who have presented the library with books during the past year, we extend our appreciation. It would be of great assistance if more gifts were received. Look over your books and perhaps there are some which you will willingly donate. The increased circulation taxes our resources to the limit.

Respectfully submitted,

EDNA A. HUTCHINS,

Librarian.

REPORT OF SUPERINTENDING SCHOOL COM- MITTEE

To the Citizens of Corinna:

We hereby submit our report for the year ending
February 1, 1933.

In submitting this report we wish to briefly outline
the outstanding duties pertaining to the office.

For an itemized statement of all expenditures you
are referred to the various school departments.

Three school houses were painted on the outside, and
one on the inside. A drinking fountain was installed
at the village grade school. The closing of the school
at the Ridge and Morse's Corner made it advisable to
protect the glass in the windows, and outside shutters
were made for each house. Other minor repairs have
been made where needed. There still remain four
school houses with the old fashioned type of bench
seats. When the opportune time arrives these should
be replaced with modern seats.

In closing two schools and conveying the pupils to other schools, a considerable saving has resulted, and we believe better school advantages given the pupils thus conveyed.

We feel that our teachers are doing good work and making every effort to keep our schools of high grade.

There is at the present time a very active Parent-Teachers' Association. This affords a splendid opportunity for a better understanding between parents and teachers. We feel that it is worthwhile, and would like to see all citizens interested.

Since public education uses a large portion of the tax dollar, it has inevitably received much serious criticism as has all governmental institutions.

One of the results of the current depression has been the growth of a critical attitude on the part of the people toward all public activity. This is only natural. We realize that in this time of national distress the public school must bear its proportionate share in any program of economic retrenchment. But the education of the children must not be the first point of attack nor should the schools carry or bear the major sacrifice.

A state or town can afford to lose time on the construction of a road, a bridge or a building and by speeding up construction at a later time can possibly catch up, but education must be continuous.

We believe that our teachers as a group are fully awake to the crisis thru which we are passing, and are doing their best to keep up the good cheer and morale until normal living shall again prevail.

It is the desire of every member of the School Committee to co-operate in every way that will help to alleviate the high tax pressure that confronts us all.

After much study and thought we recommend for your consideration the following appropriations:

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Superintending School Committee and the Citizens of the town of Corinna:

I hereby submit my report of your schools for the year ending February 1, 1933.

The school census taken in the spring of 1932 found 234 boys and 234 girls of school age in town. Of these 272 were registered in the elementary schools and 56 were registered in the Academy, at the opening of the school year.

Ten elementary teaching positions have been maintained during the year. Closing the South Ridge and Morse's Corner schools has effected a saving of about \$700.00.

One child from the South Ridge school has been conveyed to the Center school, and those who lived in the neighborhood of the Bassett school were transferred to that school. Those of the Morse's Corner school have been conveyed to the village schools.

The following table gives the names of the schools, the names of the teachers, the weekly wages, and the number of pupils in each grade.

Name of School and Teacher	Weekly Wages	Grades										Total
		I	II	III	IV	V	VI	VII	VIII	IX		
Village:												
Horace J. Morse	\$30 88								19	17	36

		40	33	33	22	29	23	38	26	28	272	

For the enrollment of students in the Academy, please see the report of the principal.

In all of these schools good work is being done. The teachers have the welfare of the children at heart and are striving that their time and efforts shall be productive of the best results.

Health work has been carried on by the teachers in all of the schools, consisting of physical exercises, health chores, health studies, health talks and instruction in the care of the teeth. In some of the schools the fight against bad teeth has been carried on during the whole year. The fact that teachers are willing and anxious to do this work is very commendable in them.

The janitor work in the village has been very satisfactorily done by Mr. Church; and that in the outside schools is in charge of the teachers who either do the work themselves or hire someone to do it for them.

Five conveyance teams are maintained at a weekly expense of \$52.50.

The attendance officer, Mr. Metevier, has always been ready to attend to any cases of truancy reported to him.

It is recommended that the Ridge school and the Morse's Corner school remain closed for at least another year.

Thinking the citizens might be interested to know how many cents of the tax dollar are spent for education, and also the disposition of the school dollar, I am giving the following figures:

36.7 cents of the tax dollar are spent for education.

The disposition of the school dollar is as follows:

For elementary schools	64.1 cents
For secondary school	25.5 "
For books	2.4 "
For supplies	2.1 "
For repairs	2.2 "
For superintendence	2.8 "
For insurance	.9 "

100.0 "

Please see the school committee's report for further information and for estimated requisition for school funds for next year.

I do hereby express my appreciation and thanks for the kind consideration and help which I have received from all with whom I have come in contact in the discharge of my duties.

Respectfully submitted,

FREDERICK M. NICKERSON,
Superintendent of Schools.

REPORT OF PRINCIPAL OF CORINNA UNION ACADEMY

To the Superintendent of Schools, Corinna, Maine:
Dear Sir:

I herewith submit my report as principal of Corinna Union Academy.

The school enrollment at the beginning of the year was seventy-three, including one post-graduate. During the year eight have left for various reasons and one has transferred leaving a present enrollment of sixty-four.

	Boys	Girls
Seniors	5	6
Juniors	6	8
Sophomores	7	8
Freshmen	14	10
	—	—
	32	32

The scholastic standing of the school is excellent. Twenty students were on the honor roll for the first term, with very few failures.

At the beginning of the year there were several outstanding bills which are being taken care of as rapidly as possible, and we hope to have them all paid by the end of the year. We have not definitely decided wheth-

er it would be advisable to publish the Muse this year on account of prevailing conditions. If it is not published, however, some other school activity will be substituted in its place.

I wish to extend the thanks of the faculty to you, to the School Board and to the townspeople for the fine assistance and cooperation that we have received this year.

Respectfully submitted,
SAMUEL A. THOMPSON.

D. R. PALMER,

Selectmen of Corinna.

A sufficient number of these reports have been printed to furnish every interested citizen with a copy. An effort has been made to get them into the hands of the voters in advance. It should be borne in mind that if copies are left at home there may not be a sufficient number at the hall to go around on town meeting day. This year or any year it is desirable for you to have a copy of the annual report as soon as issued. It is also important for you to preserve it and bring it with you town meeting day morning.

Librarian's Report

To the Board of Selectmen:

I herewith submit the 35th annual report of the Stewart Free Library for the year 1933.

The library has had a circulation of 16,450 books, quite an increase over last year. This is an average of 160 per day.

There has been added during the year 132 volumes, making the number of volumes in the circulating library 9702.

During the year there has been three branch libraries in the rural sections of the town. The one at the home of Mrs. Angie Percival seems to be the most used as during the year she has circulated 1,396 books. This service of branch libraries will be extended to any section of the town requesting the service.

During five weeks of the fall term of school, Mr. Morse sent two classes each week to the library for instruction in library science. This is surely of great value to the students, making them more self dependent besides giving them a feeling of confidence when in a library.

Owing to the increased circulation of books during the last two years our resources are taxed to the limit. It is impossible to meet the demand for new books.

Every man and woman in America today is having what we term "Leisure Time."

Not many years ago, the sixteen hour day was most common. When we began our great scientific age the sixteen hour day was cut to eight. Now, where are we going? It is this that is sending many people to the libraries, who previously had not the time to devote to reading. If this leisure time could be devoted to things as worthwhile as the reading of good books, perhaps there would be less crime in the world today.

This brings us face to face with the obligations of educating ourselves in the use of leisure for the enrichment of human life.

The library is well supplied with books that will help in self-education.

We are always willing to buy any worthwhile books for the use of study clubs, Girl Scouts, parents or teachers.

Respectfully submitted,

EDNA A. HUTCHINS,

Librarian.

REPORT OF SUPERINTENDING SCHOOL COMMITTEE

To the Citizens of Corinna:

We hereby submit our report for the year ending February 1, 1934.

The beginning of this school year found us with a new Superintendent, Mr. Phillip Woodworth, whose wide experience in the field of education, has brought to our schools many new and modern methods. The schools are making splendid advancement under his direction.

Your attention is called to the expenditures in the various departments. We have endeavored to keep within the appropriation in every department. In order to do this it was positively necessary to reduce salaries drastically, until at the present time most of our teachers are receiving less pay than the blanket code prescribed for unskilled labor.

There are today in the United States three out of every four teachers receiving less than \$750 per school year.

It is said that there are 400,000 citizens making their living by crime. Racketeers are costing five and one half times more than the public schools. These facts should be given their significance now, or pay for it later.

As it is better to form character than to reform it, the selection of teachers should be a vital issue. Trained teachers who get a living wage should be an answer to the situation.

It will be most detrimental to our schools to further reduce wages. We have at the present time a fine group of teachers who are putting forth every effort to make our boys and girls good citizens.

Our school system will continue vigorous so long as the citizens of the town believe that adequate support

of their schools is the highest duty of a self governing community.

This year with only three exceptions, every one of our present teachers attended summer school. Two of these exceptions were teachers who had been out of Normal school only one year. Every teacher who makes an effort to better prepare themselves for their profession by using their time and money to attend a summer school is giving back just that much more in service to the town.

A tribute should be paid to the citizens in the Bassett district in making it possible to replace the old fashioned type of bench seats with modern desks. They contributed \$70.00. This shows real cooperative spirit on the part of the parents and friends of the school.

There has accrued in the personnel of the superintending school committee an unprecedented incident. Mr. Sidney Folsom having one more year to serve on the committee has resigned. His resignation going into effect March first. Mrs. Eleanor Lincoln who was appointed to serve in the place of Mr. Sorrensen, resigned, retires according to school law at the annual meeting. The other member of the committee retires having served the full term. This means the election of an entire new committee.

You, as voters, with civic consciousness should see to it that people of integrity are elected, bearing in mind that no important educational development has ever come without opposition, and the surest way to defeat learning is to place it in charge of those whose own education has stopped.

Is there need to stress the social calamity precipitated when a person wishes to become a member of a school committee with some axe to grind.

The appropriations which we are presenting for your consideration are based upon the same salaries as paid last year.

REPORT OF SUPERINTENDENT OF SCHOOLS

A rapidly changing world has made what formerly seemed impossible an everyday event. The control of the forces of nature has enlarged man's power, brought the world into closer contact, opened new roads both to prosperity and to ruin, to virtue and to crime. Nations are less isolated; local famine is no more. Man has created the machine to do his work, but the machine is dependent upon man for its continued operation and production.

All this has made the major problems of life more extensive and more intricate. In doing so it has multiplied the chances of error, and the consequences that may follow. Wisdom in the conduct of human affairs and mutual confidence in the enlarged contacts, have become more difficult and at the same time more needful.

Thus the responsibility of educating our youth is upon us greater than ever before. Children will face problems of even greater magnitude than those left unsolved by this generation. Children should not be

denied the educational opportunities that are rightfully theirs. They deserve every sacrifice that you are called upon to make. Essential educational standards must be preserved.

The professional standing of the Corinna teachers as a group is high. The interest manifested on the part of the majority to maintain a high standard of excellence in scholarship is significant. Several attended summer schools the past summer: Horace J. Morse, Marion Knox, Lucille Hutchins, Sadie Dearborn, Helen Stone, Irma Tasker, Velma Pushor.

New teachers included: Eleanor McKenney, Margery McKenney and Madeline Ireland, graduates of Castine Normal; Marion Knox, graduate of Farmington. Eight of the eleven elementary teachers are local residents.

Salaries are the lowest in years: one teacher receiving eight dollars weekly; two, twelve; one thirteen and five, fifteen. This, on the basis of a thirty-four week school year, is little inspiration for a teacher to attend summer sessions or otherwise seek for professional improvement. The salary of a teacher represents, in most cases, the total income for fifty-two weeks; it is clear enough that the salaries are not adequate.

Our total income for the elementary schools was \$2,898.66 less than the previous year. Loss in state funds was \$687.69. There is a difference in balance of approximately \$2,500.00 less than last year. The budget is made on salaries now being paid although it is not certain that capable teachers and drivers can be secured another year for the same figures.

It was necessary to abolish the study of music.

Despite a most severe winter attendance has been average. A constantly increasing enrollment is noticeable. Schools are ever growing.

Two resignations and one expiration of the term of office make necessary a complete slate of school offi-

cers. A continuity of administration in this important department is vital to the welfare of the community.

The co-operation of teachers, pupils, town officers, and school board members is deeply appreciated.

Respectfully submitted,

PHILLIP H. WOODWORTH,

Superintendent of Schools.

REPORT OF PRINCIPAL OF CORINNA UNION ACADEMY

To the Superintendent of Schools, Corinna, Maine.

Dear Sir:

I herewith submit my report as principal of Corinna Union Academy.

The school enrollment at the beginning of the year was seventy-three, including two post-graduates. During the year two have left and one has transferred, leaving a present enrollment of seventy.

	Boys	Girls
Seniors	5	7
Juniors	5	6
Sophomores	8	9
Freshmen	12	17
Post-graduates	1	—
	—	—
	31	39

The scholastic standing is even better than a year ago. Twenty-six students were on the honor roll for the first term. No student has dropped out because of poor rank thus far.

The attendance has not been very good, due to the extremely cold weather.

I wish to respectfully call your attention to our need for a set of good reference books and to the lack of sufficient laboratory supplies. Although some equipment has been purchased during the last two years, we still need some of the more expensive machines for work in Physics. A few new sets of textbooks will be needed also next year if we are to keep up with the modern ideas of teaching.

I wish to extend the thanks of the faculty to you, to the School Board, to the Trustees and to the townspeople for the fine assistance and cooperation that we have received during the past year.

Respectfully submitted,

SAMUEL A. THOMPSON.

Given under our hands at Corinna this 26th day of February, 1934.

C. L. JONES,
W. L. PUSHOR,
M. S. QUIMBY,

Selectmen of Corinna.

A sufficient number of these reports have been printed to furnish every interested citizen with a copy. An effort has been made to get them into the hands of the voters in advance. It should be borne in mind that if copies are left at home there may not be a sufficient number at the hall to go around on town meeting day. This year or any year it is desirable for you to have a copy of the annual report as soon as issued. It is also important for you to preserve it and bring it with you town meeting day morning.

Librarian's Report

To the Trustees of Stewart Free Library:

I herewith submit the thirty-sixth annual report of the Stewart Free Library for the year 1934.

The library has been open for service 102 days, with a circulation of 14,616.

New books added by purchase 146, by gift 19, making the number of books in the circulating library to date 9867.

Much credit is due Mrs. Angie Percival for her willingness to devote so much time to the care of a "home library", having circulated during the past year 763 books.

Travelling libraries are sent to each school upon request. School deposits are the best means to foster a love of reading in children and to increase registration in the children's department. By bringing books to the child, the reading habit will develop in him and eventually the child will come to the library attracted by a greater and more varied choice. The books are here for the asking.

During the summer a gift of approximately 700 volumes was presented by Mr. John M. W. Pratt of Milwaukee, Wis. Mr. Pratt was born in this town several years ago, and wished that his own private library might "rest in the town of his nativity." The collection consists of poetry, history, biography and some fiction. As soon as possible the books will be put into circulation.

Respectfully submitted,

EDNA A. HUTCHINS,

Librarian.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Superintending School Committee and the Citizens of Corinna:

I have the honor to submit my second annual report.

The school officials of Corinna are deeply conscious of the support and service rendered by the parents and citizens. Many have their own opinions on matters of school policy; but they are a unit in their devotion to the schools and in their desire to make their loyalty effective by having the schools improve from year to year.

Considering the severe economic strain that has been felt by many families, the spirit of the pupils has been excellent. Teachers have applied themselves wholeheartedly to their work. Four new teachers began their work in September: Miss Elizabeth E. Newell of Belfast, a graduate of Farmington Normal, began her fourth year of teaching at the village school; Miss Marion A. Starkey of Brewer, a Farmington graduate, assists Miss Ireland in the primary room; Miss Thelma Downes, a Castine graduate is the new teacher at the Basset School; Miss Beatrice Mullen, a graduate of Colby College, has the grammar room at the Center.

The distribution of the 287 elementary school pupils is: Village Grammar, 159; Bond's Corner, 18; Town Farm, 21; Bassett, 22; Fisher, 14; Center, 53. A total increase of twelve pupils is noted. No decrease in enrollment for the coming years is expected.

Financially we are still operating under the same salary schedule as last year. No change is contemplated in the new budget.

Thirty-one desks were purchased for the Town Farm school, the parents taking the initial step by

raising seventy dollars for the purpose. This caused a deficit in the Supplies Account, which is off-set by a balance in the Books Account. The increased enrollment in the other schools required the addition of three chairs and five desks.

Co-operation of the teachers and town officers brought our school census up to date and increased our State subsidy approximately \$170.00.

Whatever we have accomplished during the past year has been made possible through the courtesy, co-operation and loyalty of our friends. Our sincere thanks is extended.

Respectfully submitted,
 PHILLIP H. WOODWORTH
 Superintendent of Schools.

REPORT OF THE SUPERINTENDING SCHOOL COMMITTEE

To the Citizens of Corinna:

We hereby submit our report for the year ending February 1, 1935.

An itemized statement of all expenditures will be found under the various departments.

Economical expenditure of all school funds have been constantly our aim. Only the very necessary repairs have been made.

The parents and friends at the Town Farm school helped to make possible the installation of new seats to replace the antiquated benches. There is now only one school house in town without modern seats.

It seems unnecessary for this committee to go into details concernnig the operation of our schools.

We have a very efficient superintendent thoroughly

trained in school work from whose report you will get all the desired information.

We as a committee do however feel that we have a very conscientious and hard working staff of teachers, doing all possible for the children under their supervision.

America can never be saved by the teaching of the "three r's"; America has to be saved on a higher level, the level of character which in turn makes for better citizenship. Our teachers are assuming that responsibility, of character building, as well as the teaching of the "three r's". Seldom do we attain perfection in this world and ever we are in the march of progress, so no doubt we must sometimes make some changes as demands grow.

The survey recently made by the Maine School Finance Commission makes for progress and changes in the Maine educational system. All citizens interested in education should make a careful study of the survey and especially legislative document No. 56 which is now before the members of the eighty-seventh legislature.

We present for your consideration the following recommendations of money needed to carry on the schools for the coming year. These amounts do not provide for any increase in salaries.

Common Schools	\$5,500 00
Textbooks	165 00
Supplies	400 00
Repairs	250 00
Supt. of Schools	434 85
High School	5,200 00

Respectfully submitted,

REPORT OF PRINCIPAL OF CORINNA UNION ACADEMY

February 13, 1935

To the Superintendent of Schools, Corinna Maine:

Dear Sir:

I herewith submit my report as principal of Corinna Union Academy.

The school enrollment at the beginning of the year was eighty. During the year nine have left, mainly on account of scholastic difficulties and two have registered from other schools, giving a present enrollment of seventy-three.

	Boys	Girls
Seniors	4	5
Juniors	6	8
Sophomores	7	12
Freshmen	14	17
	—	—
	31	42

We have been fortunate this year in that there has been no serious contagious diseases and the attendance for this winter has been much better than last.

May I again call your attention to the fact that we lack suitable reference books and magazines. A few courses will require new textbooks next year and considerable apparatus is needed for Physics laboratory.

In closing, I wish to extend the thanks of the faculty to you, to the School Board, to the Trustees, and to the townspeople for the fine assistance and cooperation that we have received during the past year.

Respectfully submitted,

SAMUEL A. THOMPSON,

Principal
